OK, so the note will go out from OEM.

Thanks!

The Finance Desk in the EOC will be the contact point. But that will be staffed by someone (me, Lavone, etc)

Will you all be sending out a note, or should it come from SBO (sorry, Jen)?

Thanks!

M-

Region 8 set up a site specific code in their region A8K9

Changes please let others in OEM know. OEM and other AA ships will need to use.

THANKS for the followup

Subject: SSID for Gold King

Laura called about whether we had an SSID set up for Gold King mine (OCFO has been getting questions). I told her that there is an existing code, but we were looking into having the code set up in PPL.

She said that Carol and Maria would send a note to the affected regions on what the code is.

Thanks!
